

SOCK METHOD FOR LEARNING PHARM

S

SIDE EFFECTS:

- Focus on life threatening side effects that effect major organs and contradict therapy View 140 Must Know Meds and MedMaster Course for help.

O

ORGANS:

- Start with a macro understanding of A&P and focus on meds, side effects, and considerations that deal with major organ systems.

C

CLASS/CONSIDERATION/CARDS:

- Focus on pharmacological classes, nursing considerations that impact ABCs and major organs. and use the NRSNG Drug Card Template.

K

MUST KNOW:

- You can't learn every medication, Focus on the most prescribed. Use NRSNG cheatsheets to help with this and develop your own list based on where you work.
